8.6 The following conflict of interest rules shall apply with respect to recruitment of government/client staff within the consultant's proposed team:

- (a) No member of the client's board of directors or current employees of the client (whether part time, or full time, paid or unpaid, in leave status, etc.) shall be proposed or work as, or on behalf of, any consultant.
- (b) Except as provided in sub-clause 8.6(d), no current employees of the government shall work as consultants or as personnel under their own ministries, departments or agencies.
- (c) Recruiting former client or government employees to perform services for their former ministries, departments or agencies is acceptable provided no conflict of interest exists.
- (d) If a consultant proposes any government employee as personnel in their technical proposal, such personnel must have written certification from the government confirming that: (i) they will be on leave without pay from the time of their official proposal submission and will remain on leave without pay until the end of their assignment with the consultant and they are allowed to work full-time outside of their previous official position; or (ii) they will resign or retire from government employment on or prior to the contract award date. Under no circumstances shall any individuals described in (i) and (ii) be responsible for approving the implementation of this contract. Such certification shall be provided to the client by the consultant as part of its technical proposal.
- (e) In the case where a consultant seeks to engage the services of any person falling under ITC sub-clauses 8.6(a) – 8.6(d), who may have left the client within a period of less than twelve (12) months of the date of this RFP, it must obtain a written "no-objection"

from the client for the inclusion of such a person, prior to the consultant's submission of its proposal.

8.5 A consultant that has been engaged by the client to provide goods, works or services for a project, its personnel and any of its affiliates, shall be disqualified from providing consulting services related to those goods, works or services. Conversely, a consultant hired to provide consulting services for the preparation or implementation of a project, its personnel and any of its affiliates, shall be disqualified from subsequently providing goods, works or non-consulting services resulting from or directly related to such consulting services for such preparation or implementation.

8.6 A consultant is under an obligation to disclose any situation of actual, potential or perceived conflict of interest that impacts, may impact, or might reasonably appear to be perceived by others to impact, their capacity to serve the best interest of the client. Failure to properly disclose any of said situations may lead to appropriate actions, including the disqualification of the consultant, the termination of the contract and any other as appropriate under the IFAD Policy on Preventing Fraud and Corruption in its Activities and Operations.

8.7 A consultant, all parties constituting the consultants, and any subcontractors for any part of the contract, and their respective personnel and affiliates, will not be any person or entity under a declaration of ineligibility by the Fund for having engaged in prohibited practices as contemplated by ITB clause 4 above. The Fund also has the right to unilaterally recognize debarments by any of the International Financial Institutions that are members to the Agreement for Mutual Enforcement of Debarment Decisions if such debarments meet the requirements for mutual recognition under the Agreement for Mutual Enforcement of Debarment Decisions.

8.8 A consultant, all parties constituting consultant, and any subcontractors for any part of the contract and their respective personnel and affiliates not otherwise made ineligible for a reason described in this ITB Clause 8 will nonetheless be excluded if:

- a) as a matter of law or official regulation, the Government prohibits commercial relations with the country of the consultant (including any associates, subcontractors and any respective affiliates) provided that the Fund is satisfied that such exclusion does not preclude effective competition for the

supply of goods or the contracting of works or services required; or

- b) by an act of compliance with a decision of the United Nations Security Council taken under chapter VII of the Charter of the United Nations, the Government prohibits the issuance of a payment.

8.9 Consultants shall provide evidence of their continued eligibility in a manner satisfactory to the client, as the client shall reasonably request.

8.10 If a consultant could derive an unfair competitive advantage from having provided services related to the assignment in question, the client shall make available to all consultants, together with this RFP, all information that would in that respect give such consultant any unfair competitive advantage over competing consultants.

9. Origin of Goods and Services

9.1 Goods supplied and services provided under the contract may originate from any country, subject to the same restrictions specified for consultants (including their associates, if any), their personnel and sub-consultants set forth in ITC sub-clause 8.8.

- (a) In the case where there has been no shortlisting of consultants, a consultant may enhance its expertise for the assignment by associating with another consultant. In the case where a consultant is, or proposes to be, a joint venture or other association then it shall be bound by the requirements of ITC 8.3
 - (b) In the case where there has been shortlisting of consultants, if a shortlisted consultant considers that it may enhance its expertise for the assignment by associating with other consultants in a joint venture or sub-consultancy, it may associate with either (a) non-shortlisted consultant(s), or (b) shortlisted consultant(s) if so indicated in the PDS. A shortlisted consultant must first obtain

the approval of the client if it wishes to enter into a joint venture with non-shortlisted or shortlisted consultant(s). In case of association with non-shortlisted consultant(s), the shortlisted consultant shall act as the authorized representative of the association. In case of a joint venture, all partners shall be jointly and severally liable and shall indicate who will act as the leader of the joint venture.

- (c) The estimated budget or the estimated number of person-months for key professional personnel envisaged to execute the assignment are indicated in the PDS. However, the evaluation of the proposal shall be based on the price relevant to the number of person-months indicated by the consultant in its proposal.
- (d) For assignments based on fixed budget selection (FBS), the available budget is provided in PDS ITC 15.2(c), and the financial proposal shall not exceed this budget, while the number of professional staff-months shall be as estimated by the consultant.
- (e) Alternative key professional personnel shall not be proposed, and only one curriculum vitae ("CV") may be submitted for each position indicated in the TOR.

Technical and
Financial
Proposal Format
and Content

15.3 Consultants are required to submit a technical proposal, which shall provide the information indicated in the following paragraphs (a) through (g) using the standard forms provided in Section V A. A page is considered to be printed on one side of an A4 paper.

- (a) Information on the consultant's financial capacity is required (form TECH-2A of Section V A) unless otherwise stated in the PDS. Information on current or past proceedings, litigation, arbitration, action claims, investigations or disputes is required (form TECH-2B of Section V A). A brief description of the consultants' organization and an outline of recent experience of the consultant and of each associate, if any, on assignments of a similar nature is required (Form TECH-3 and TECH-4 of Section V A). For each assignment, the outline should indicate the names of associates or key professional personnel who participated, duration of the assignment, contract amount, and consultant's involvement. Information shall be provided only for those assignments for which the consultant was legally contracted as a corporation or as one of the major firms within a joint venture. Assignments completed by individual professional staff working privately or through other consultants cannot be claimed as the

experience of the consultant, or that of an associate, but can be claimed by the professional staff themselves in their CVs. Consultants must be prepared to substantiate the claimed experience, if so requested by the client. The contact information for references of the consultant are required (form TECH-4 of Section V A).

- (b) Comments and suggestions on the terms of reference including workable suggestions that could improve the quality / effectiveness of the assignment; and on requirements for counterpart staff and facilities including administrative support, office space, local transportation, equipment, data, etc. to be provided by the client (form TECH-6 of Section V A).
- (c) A description of the approach, methodology and work plan for performing the assignment covering the following subjects: technical approach and methodology, work plan, and organization and staffing schedule. Guidance on the content of this section of the technical proposal is provided (form TECH-5 of Section V A). The work plan should be consistent with the work and deliverables schedule (form TECH-9 of Section V A) which will show in the form of a bar chart the timing proposed for each activity.
- (d) The list of the proposed key professional personnel by area of expertise, the position that would be assigned to each person, and their tasks (form TECH-8 of Section V A).
- (e) Estimates of the staff input (person-months of foreign and local professionals) needed to carry out the assignment (form TECH-8 of Section V A). The person-months input must be indicated separately for home office and field activities, and for foreign and local professional staff respectively.
- (f) CVs of the key professional personnel signed by the staff themselves and/or by the authorized representative (form TECH-10 of Section V A).
- (g) A detailed description of the proposed methodology and staffing for training, if training is identified in the PDS as a specific component of the assignment (form TECH-5 of Section V A).

15.4 The technical proposal shall not include any financial information other than the required information in form TECH-2A (financial

capacity of the consultant). A technical proposal containing cost information related to assignment implementation will constitute grounds for declaring the proposal non-responsive.

15.5 The Financial Proposal shall be prepared using the standard forms provided in Section V B of the RFP. It shall list all costs associated with the assignment, including (a) remuneration for key experts and non-key experts, (b) reimbursable expenses associated with assignment implementation.

|--|---|
| 16. Taxes | 16.1 GCC 19 sets forth the tax provisions of the contract. Consultants must review this clause carefully in preparing their proposals. |
| 17. Only one Proposal | 17.1 Consultants shall submit only one proposal as a sole consultancy firm or as a joint venture member. If a consultant participates in more than one proposal, all such proposals shall be disqualified. However, this does not preclude the participation of the same sub-consultants, including individual experts, in more than one proposal. |
| 18. Currencies of Proposal | 18.1 Consultants must submit their financial proposals in the currency or currencies specified in the PDS. Consultants will be paid in the currency specified in the PDS. |
| 19. Period of Proposal Validity | <p>19.1 Proposals shall remain valid for the period specified in the PDS after the proposal submission deadline date prescribed by the client. A proposal valid for a shorter period shall be rejected by the client as non-responsive.</p> <p>19.2 During the period of proposal validity, consultants shall maintain the availability of key professional personnel identified in the proposal. The client will make its best effort to complete negotiations within this period. Should the need arise, however, the client may request consultants to extend the validity period of their proposals. This request shall be made within the original validity period of the proposal. Consultants who agree to such extension shall confirm that they maintain the availability of the key professional personnel nominated in the proposal, or in their confirmation of extension of validity of the proposal, consultants could submit new key professional personnel in replacement. In such case, a replacement key expert shall have equal or better qualifications and experience than those of the originally proposed key expert. The technical evaluation score, however, will be based on the evaluation of the CV of the original key expert. Consultants</p> |

who do not agree have the right to refuse to extend the validity of their proposals.

D. Submission and Opening of Proposals

20. Sealing and Marking of Proposals

20.1 The following applies to the “original” of the technical proposal, and of the financial proposal. The “original” shall contain no interlineations or overwriting, except as necessary to correct errors made by the consultants themselves. The person signing the proposal must initial such corrections, as well as initial each page of the relevant “original”. The submission letters for the technical proposal and for the financial proposal should respectively be in the format shown in (form TECH-1) and (form FIN-1).

20.2 If required in the PDS, the authorized representative of the consultant signing the “original” of the technical and the financial proposals shall provide within the technical proposal an authorization in the form of a written power of attorney demonstrating that the person signing has been duly authorized to sign the “original” on behalf of the consultant, and its associates. The signed technical proposals and the signed financial proposals shall be clearly marked “original”.

20.3 Copies of the technical proposal and the financial proposal shall be made, in the number stated in the PDS, and each shall be clearly marked “copy”. If discrepancies are found between the original and any of the copies of the relevant documents, then the “original” shall govern. If consultants have the option of submitting proposals electronically, this shall be stated in the PDS.

20.4 The “original” and each “copy” of the technical proposal shall be placed in a sealed envelope/parcel clearly marked “technical proposal”. Similarly, the “original” and each “copy” of the financial proposal shall be placed in a separate sealed envelope/parcel clearly marked “financial proposal”.

20.5 Each envelope/parcel shall bear the name and address of the client as stated in the PDS, the name and address of the consultant (in case they may have to be returned unopened), and the name and reference number of the assignment as stated in PDS ITC 2.3.

20.6 In addition, the envelope/parcel containing the original and copies of the financial proposal shall be marked with a warning “do not

open with the technical proposal". If the financial proposal is not submitted in a separate sealed envelope/parcel duly marked as indicated above, this will constitute grounds for rejecting the proposal.

20.7 The two envelopes/parcels containing the Technical Proposal and the Financial Proposal shall then be placed into one outer envelope or carton (as appropriate) and securely sealed to prevent premature opening. This outer envelope/carton shall bear the submission address, name and address of the Consultant, name of the assignment and its reference number, and be clearly marked with the statement indicated in the PDS and bear the name and address of the client as stated in PDS ITC 20.5. The client shall not be responsible for misplacement, losing or premature opening if the outer envelope/carton is not sealed and/or marked as stipulated. This circumstance may be cause for proposal rejection.

21. Deadline for Submission of Proposals

21.1 Proposals must be received by the client before the submission deadline specified in the PDS.

21.2 A consultant may withdraw, substitute, or modify its proposal prior to the deadline for the submission of proposals by sending a written notice duly signed by the consultant's authorized representative to the client's address indicated in PDS 20.5. The enclosures of the corresponding substitution or modification of the proposal must accompany the respective written notice. All notices must be:

- (a) clearly marked "withdrawal," "substitution," or "modification";
- (b) received by the client prior to the deadline stipulated for submission of proposals;
- (c) sent directly as electronic submissions to the file request link or if submitting in hard copy to the address indicated in PDS 20.5; and be
- (d) in pdf or word format and in the same number of original and copies as the original proposal.

21.3 Proposals requested to be withdrawn shall remain unopened. No proposal may be withdrawn, substituted, or modified in the interval between the deadline for submission of proposals and the expiration of the period of proposal validity specified in this RFP.

21.4 The client may, at its discretion, extend the deadline for the submission of proposals by amending this RFP in accordance with ITC 12, in which case all rights and obligations of the client and the consultants previously subject to the original deadline shall thereafter be subject to the new deadline as extended.

22. Late Proposals

22.1 Any proposals received by the client after the deadline for submission of proposals shall be declared late, rejected, and returned unopened to the consultant.

23. Proposal Opening

23.1 The client shall open the outer envelopes/cartons in a public meeting at the address, date and time specified in the PDS as soon as possible after the deadline for submission and sort the proposals into technical proposals or financial proposals as appropriate. The client shall ensure that the financial proposals remain sealed and securely stored until such time as the public opening of financial proposals takes place.

E. Evaluation of Proposals

24. Confidentiality

24.1 Information relating to the evaluation of proposals and recommendations of contract award shall not be disclosed to consultants or any other persons not officially concerned with the process, until the publication of the award of contract. The undue use by any consultant of confidential information related to the process may result in the rejection of its proposal or may invalidate the entire procurement process.

24.2 Any attempt or effort by a consultant to influence the client in the examination, evaluation, and ranking of proposals or contract award decisions may result in the rejection of its proposal and may subject the consultant to sanctions and remedies including debarment by IFAD as per ITB clause 4 in addition to sanctions imposed by the government and/or the client.

25. Clarification of Proposals

25.1 To assist in the examination and evaluation of proposals, the client may, at its discretion, ask any consultant for clarification of its proposal. Any clarification submitted by a consultant that is not in response to a request by the client shall not be considered. The client's request for clarification and the consultant's response shall be in writing. No change in the prices or substance of the proposal shall be sought, offered, or

permitted except to confirm the correction of arithmetic errors discovered by the client in the evaluation of the proposals.

25.2 If a consultant does not provide clarifications of its proposal by the date and time set in the client's request for clarification, its proposal may be rejected.

26. Evaluation of Technical Proposals

26.1 The client's technical evaluation committee (TEC) shall evaluate the technical proposals on the basis of their responsiveness to the terms of reference, applying the evaluation criteria, sub-criteria, and point system specified in Section IV. Each responsive proposal will be given a technical score (St). A proposal may be rejected at this stage if it does not respond to the RFP or if it fails to achieve the minimum technical score indicated in the PDS.

26.2 In exceptional circumstances, if none of the scores awarded by the TEC reach or exceed the minimum technical score (St), the client, subject to IFAD no-objection, reserves the right to reject all proposals and to invite a new competition. The new competition shall be based on a new shortlist of consultants to be established through a "request for expression of interest" and may include adjustments to the TOR of the assignment and/or relevant contract parameters, as appropriate. The new TOR, shortlist and RFP shall be subject to IFAD's no-objection.

26.3 In case no shortlisting has taken place, the consultant's financial capability to mobilize and sustain the services is critical and additional evidence must be provided by the consultant, if so, requested by the client. In its proposal, the consultant is required to provide information on its financial and economic status unless otherwise stated in PDS ITC 15.3(a). The information required must be provided using the form TECH-2A.

26.4 A consultant that fails to demonstrate through its financial records that it has the economic and financial ability to perform the required services as described in the respective terms of reference shall be disqualified. In the circumstance of a disqualification the technical proposal will not be evaluated further and the financial proposal shall be returned unopened.

26.5 The client, at its discretion, may ask for clarifications or additional information regarding the information provided in form TECH-2A.

26.6 The outcome of the financial capacity evaluation is a clear "yes" or "no". Any consultant that receives a "no" shall not be evaluated further

and its financial proposal shall be returned unopened. The proposals that receive a “yes” at this stage will be evaluated further according to the technical scoring methodology described in Section IV.

27. Evaluation of Financial Proposals

Financial Proposals (only for QBS)

27.1 Following the ranking of technical proposals, and after receiving a “no objection” from IFAD (if applicable), when selection is based on quality only (QBS), the first ranked consultant with financial records proving that it has the economic and financial ability to perform the required services as described in the respective terms of reference will be invited to negotiate its technical and financial proposals and the contract in accordance with the instructions given under ITC clauses 29 and 30.

Financial Proposals (only for QCBS, FBS, LCS)

27.2 Following completion of the evaluation of technical proposals, and after receiving a “no objection” from IFAD (if applicable), the client shall inform the consultants who have submitted proposals of the technical points (total score only) assigned to each consultant. The client shall simultaneously notify the consultants that have secured at least the minimum qualifying mark and with financial records proving that they have the economic and financial ability to perform the required services as described in the respective terms of reference of the date, time, and place set for opening the financial proposals and notify them that their attendance at the opening of the financial proposals is not mandatory. The financial proposal opening shall take place at the location indicated in the PDS. The notification shall also advise those consultants whose technical proposals did not meet the minimum qualifying mark, or which were considered non-responsive, that their financial proposals will be returned unopened after the client has completed the selection process.

27.3 The client shall open the financial proposals in a public meeting at the address, date and time specified in the notification described in ITC sub-clause 27.2. All financial proposals will first be inspected to confirm that they have remained sealed and unopened. Only the financial proposals of those consultants who met the minimum qualifying mark following the technical evaluation stage and with financial records proving that they have the economic and financial ability to perform the required services as described in the respective terms of reference will be opened. The Technical Score (St) and only the total proposal price, as

stated in the financial proposal submission form (form FIN-1) shall be read out aloud and recorded. A copy of the record shall be posted on the client's website.

27.4 The financial evaluation of proposal prices shall take into account the taxes that will be imposed on the consultant in the borrower/recipient's country unless otherwise indicated in the PDS. In time-based contracts, the client shall correct any computational errors, and in cases of a discrepancy between a partial amount and the total amount, or between words and figures the former will prevail. In addition to the above corrections, activities and items described in the technical proposal but not priced, shall be priced and added to the price of the respective consultant. Also in the case of time-based contract, where an activity or line item is quantified differently in the financial proposal from the technical proposal, the financial proposal shall be adjusted accordingly to reflect the prices and quantities specified in the technical proposal. If a lump-sum contract form is included in the RFP, the consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical corrections nor price adjustments shall be made and the consultant will be bound to deliver the services as described in its technical proposal. If consultants are not required to submit financial proposals in a single currency, prices shall be converted to a single currency for evaluation purposes indicated in the PDS using the selling rates of exchange, source and date indicated in the PDS.

27.5 For Quality and Cost Based Selection (QCBS), the lowest evaluated Financial Proposal (Fm) will be given the maximum financial score (Sf) of 100 points. The financial scores (Sf) of the other financial proposals will be computed as indicated in Section IV: Qualification and Evaluation Criteria. Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights ($T =$ the weight given to the technical proposal; $F =$ the weight given to the financial proposal; $T + F = 100\%$) indicated in the PDS. $S = St \times T\% + Sf \times F\%$. The consultant achieving the highest combined technical and financial score will be invited for negotiations in accordance with ITC clauses 29 and 30, after receiving a "no objection" from IFAD (if applicable) on the combined technical and financial evaluation report.

27.6 In the case of Fixed-Budget Selection (FBS), the client will select the firm that submitted the highest ranked technical proposal within the stipulated budget. Proposals that exceed the indicated budget will be rejected. In the case of the Least-Cost Selection (LCS), the client will select the lowest priced proposal among those that passed the minimum

technical score. In both aforementioned selection methods, the evaluated proposal price according to ITC sub-clause 27.4 shall be considered, and after receiving a “no objection” from IFAD (if applicable) on the combined technical and financial evaluation report, the selected firm shall be invited for negotiations in accordance with ITC clauses 29 and 30.

27.7 Prior to submission for IFAD’s no-objection, the client shall conduct a verification of the market-reasonableness of the prices offered. A negative determination (either unreasonably high or unreasonably low) could be a reason for rejection of the proposal at the discretion of the client. The consultant shall not be permitted to revise its submission after a determination that its offered price is unreasonable. In addition, the client may also verify any information provided on the TECH forms submitted in the proposal. A negative determination in the post-qualification could lead to the rejection of the proposal and the client may, at its discretion, move to invite the next-ranked consultant for negotiation.

**28. Past
Performance
and
Reference
Check**

28.1 The client reserves the right to check the performance references provided by the consultant or to use any other source at the client’s discretion. A negative determination by the client on the consultant’s record of performance in prior contracts, especially when the invitation was based on prior list, may be a reason for disqualification of the consultant, or lowering the related evaluation score of the consultant relevant to past experience, at the discretion of the client.

F. Award of Contract

29. Notice of Intent to Award

29.1 After the completion of the evaluation report and having obtained all the necessary internal approvals and IFAD's no-objection as per the IFAD Procurement Handbook, the client shall send the notice of intent to award to the successful consultant. The notice of intent to award shall include a statement that the client shall issue a formal notification of award and draft contract agreement after expiration of the period for filing a protest and the resolution of any protest that are submitted. Delivery of the notice of intent to award shall not constitute the formation of a contract between the client and the successful consultant and no legal or equitable rights will be created through the delivery of the notice of intent to award.

Protests and Appeals

29.2 At the same time it issues the notice of intent to award, the client shall also notify, in writing, all other consultants of the results of the selection process. The client shall promptly respond in writing to any unsuccessful consultant who, after receiving notification of the selection results, makes a written request for a debriefing or submits a protest as provided in the IFAD Procurement Handbook.

29.3 Consultants may protest the results of a procurement only according to the rules established in the module M of the IFAD Procurement Handbook. In case the number of days for

- (i) filing the protests;
- (ii) automatic lifting of the suspension; and
- (iii) the issuance of the written decision;

are different from the ones mentioned in module M; then the number of days indicated in the PDS shall prevail for each step. In case of an appeal, the level 2 authority referred to in module M of the IFAD Procurement Handbook is identified in the PDS.

30. Invitation to Negotiations and proceedings

30.1 Upon the expiry of the period for submission of protests and appeals and when all protests and appeals have been resolved, as applicable, the client shall send an invitation to negotiations to the successful consultant. Negotiations will be held on the date and at the address indicated in the PDS. The invited consultant (who is invited via the notification of award) will, as a pre-requisite for attendance at the

negotiations, confirm the availability of all the key professional personnel listed in the technical proposal. Failure to confirm such personnel may result in the client proceeding to negotiate with the next-ranked consultant. Representatives conducting negotiations on behalf of the consultant must have written authority to negotiate and conclude the contract on behalf of the consultant.

Technical
Negotiations

30.2 Negotiations will commence with a discussion of the technical proposal, including (a) proposed technical approach and methodology, (b) workplan, (c) organization and staffing, and (d) any suggestions made by the consultant to improve the terms of reference.

30.3 The client and the consultant will then finalize the terms of reference, assignment's implementation methodology including staffing schedule, work schedule, logistics, reporting and other necessary adjustments to the consultant's technical proposal. These documents will then be incorporated in the contract under "Description of Services." Special attention will be paid to clearly defining the inputs and facilities required from the client to ensure satisfactory implementation of the assignment. The client shall prepare minutes of negotiations which will be signed by the client and the consultant, and become an annex to the contract.

Financial
Negotiations

30.4 It is the responsibility of the consultant, before starting financial negotiations, to determine the relevant local tax amount to be paid by the consultant under the contract. In no event shall the client be responsible for the payment or reimbursement of any taxes. The financial negotiations will involve neither the remuneration rates for staff nor other proposed unit rates in all selection methods except for QBS.

Availability of
Professional
Staff/Experts

30.5 Having selected the consultant on the basis of, among other things, an evaluation of proposed key professional personnel, the client expects to negotiate a contract on the basis of those personnel named in the technical proposal.

30.6 During contract negotiations, the client will not consider substitution of any key professional personnel unless both parties agree that undue delay in the selection process makes such substitution unavoidable or for reasons such as death or medical incapacity of one of the personnel. If this is not the case and if it is established that any key professional personnel were offered in the proposal without confirming their availability, the consultant may be disqualified. Any proposed

Conclusion of the Negotiations	substitute shall have equivalent or better qualifications and experience than the original candidate. 30.7 Negotiations will conclude with a review of the draft contract and annexes, following which the client and the consultant will initial the agreed contract. If negotiations fail, the client will invite the consultant whose proposal received the second highest score to negotiate a contract.
31. Notice of Contract Award	31.1 Following securing IFAD no-objection to the negotiated contract, the client shall issue the notice of award to the successful consultant and sign the contract. The client shall publish on the IFAD website and at UNDB online, the results identifying the procurement, the name of the winning consultant and the price, duration, and summary scope of the contract.
32. Return of Unopened Financial Proposals	32.1 After contract signature, the client shall return the unopened financial proposals to the unsuccessful consultants at the cost and request of the consultant.
33. Commencement Dates	33.1 The consultant is expected to commence the assignment on the date and at the location specified in the PDS.

1.1 Legal Status

Each entity forming the consultant shall attach to form TECH-1 a copy of its letter of incorporation (registration), or other such document, indicating its legal status. In the event the consultant is an association of entities, the consultant shall include any other document showing that it intends to associate, or it has associated with, the other entity or entities that are jointly submitting a proposal. Submission of Technical and Commercial Proposal

Interested potential contractors should submit a Technical and Commercial Proposal for these data collection services, which will be evaluated by an IFAD Technical Evaluation and Commercial Panel. Proposals must meet all minimum requirements in order to be considered. Table 1 below presents the criteria that will be used to evaluate the Technical and Commercial proposals. In addition to these criteria, the Panel will also take into account potential contractors' ability to compile well-written and concise proposals.

Table 1: Technical and Commercial Proposal Evaluation Criteria	
Minimum requirements (Proposals must meet all minimum requirements in order to be considered.)	
1	The firm must have conducted at least two large-scale (a sample size of 2,000 households or larger) quantitative survey data collection assignments focusing rural agrarian settings within the last three years, including electronic/tablet-based data collection, field supervision and data-quality assurance.
2	Those assignments must demonstrate large-scale household and/or community survey implementation in rural or hard-to-reach settings, preferably in north-east India (and, where available, Meghalaya), and must have been conducted for international financial institutions, UN agencies, or comparable international development organizations (e.g., World Bank, IFAD, FAO, ADB, WFP, IFPRI, IRRI, etc.).
Technical Proposal Evaluation Criteria	
1	Evidence of experience conducting large-scale quantitative surveys for impact assessment in rural agrarian settings in north-eastern India, particularly, Meghalaya and/or India or other hilly regions in Asia and the Pacific
2	The firm presented a strong understanding of the requirements set out in the TOR and presented these in detail; Quality of data collection system and organization; Capacity to carry out deliverables and complete outputs according to the expected timeline of the work outputs
3	Qualifications and experience of the proposed project staff (including the data manager, supervisors and translator)
4	References provided by the contractors were valid and checked for positive feedback
Commercial Proposal Evaluation Criteria	
1	Full and accurate overall budget for quantitative data collection at household and community levels
2	Full and accurate itemized budget compared to current market rates for India including proposed rate to data collection staff

The Technical Proposal must include the following:

- Detailed proposed work plan of the project implementation including timeline and time estimation. This should be specifically linked to the Duties and Responsibilities of the work including but not limited to the details of
 1. how data quality will be ensured;
 2. how progress will be made available and traceable;
 3. how enumerators will be recruited and how their capability to collect high-quality data will be ensured;

- 
4. how training (including the pre-testing), pilot and data collection will be organised (including details on equipment use, household lists, and other field logistics).
- Copies of the CVs of the proposed senior data collection staff: Project Manager, Field Manager, Data Manager, Field Supervisor, and evidence of their previous experience, skills and education;
 - A letter of commitment by the Contractor to execute the recruitment of the enumerators with local language/dialect skills (free format);
 - At least two references, with contact information, of firms or institutions for whom the potential Contractor has carried out data collection surveys;
 - If the potential Contractor intends to sub-contract any part of the service, indicate at least two references, contact information, of firms or institutions for whom the potential Sub-contractor⁶ has provided these services;
 - A description of translation process and services back and forth between English and local language;
 - Any other relevant information, which may support the technical proposal of the Contractor for the requirements specified in the TOR;
 - Details of how the firm will effectively handle multiple IFAD contracts, if they have already won or are applying/intend to apply for additional IFAD tenders.

The Commercial Proposal must include the following:

- Itemized budget proposal in the currency of the LTA (with the equivalent in US\$, indicating exchange rate used).⁷ The Contractor must submit an itemized budget⁸ proposal disaggregated by each output item as specified in this TOR and as per example provided in Annex II;

⁶ As per Section II, Article 4 of the General Terms and Conditions for the Procurement of Services of the LTA, IFAD reserves the right to reject any Sub-contractor. Furthermore, the Contractor shall be solely responsible for all services and obligations of the Sub-contractor.

⁷ Contractors should note that the contractual arrangements and terms and conditions outlined in the LTA apply with regard to the provision of services required. Contracts can only be awarded in the **currency of the LTA** regardless of where the activities are carried out.

⁸ IFAD is VAT exempt and this should be taken into consideration when preparing the Commercial Proposal.

*** Annex III is illustrative and the final IFAD approved questionnaire/ survey solutions instrument shall prevail after signing the contract.

Annex IV. Indicative Staffing and Fieldwork Requirements for Household Data Collection

This Annex provides indicative assumptions to guide bidders in preparing the proposed fieldwork approach, staffing plan, timeline, and budget for the household survey.

Based on IFAD's experience with comparable impact assessment surveys, household questionnaires are expected to take approximately 1.5 to 2 hours per interview, depending on household characteristics and the number and complexity of applicable survey modules.

For planning purposes, bidders should assume that an enumerator will be able to complete approximately 2 household interviews per day. While 2–3 interviews per day may be feasible under favorable conditions, the planning assumption of two interviews per enumerator per day is intended to account for travel time between sampled households, possible remoteness of survey locations, road accessibility, respondent availability, and other logistical constraints that may affect the number of interviews each enumerator can complete each day.

For an indicative sample of 3,000 households, this corresponds to approximately 1,500 enumerator-days of field activities data collection, calculated as follows:

3,000 household interviews ÷ 2 interviews per enumerator per day = 1,500 enumerator-days. The number of enumerators proposed by the Contractor should therefore be sufficient to complete data collection within the required fieldwork period.

By way of illustration:

Number of enumerators	Indicative fieldwork duration*
40	38 days
50	30 days
60	25 days

*The estimates above refer to household data collection days and are indicative only. They do not include time required for enumerator training, questionnaire pre-testing/piloting, travel to and from survey areas, community-level interviews, callbacks, quality-control activities, repeated visits where applicable, or other preparatory and closing activities.

Given that the expected timing of the survey, to be completed by 7 December 2026, the Contractor is encouraged to propose a sufficiently large and operationally manageable field team. As an indication, a deployment of approximately 50-60 enumerators would allow the household data collection to be completed in approximately 30 fieldwork days, subject to actual field conditions.

The Contractor shall propose, as part of its technical offer, an appropriate staffing and deployment plan demonstrating that the proposed number of enumerators, supervisors, and field teams is adequate to complete the required sample within the agreed timeframe while maintaining the required standards of data quality. The proposed plan should take into account geographical dispersion, travel requirements, accessibility constraints, supervision arrangements, quality-control procedures, and contingency measures for potential delays.

13.3 The consultant shall have no claim for additional costs arising out of or incidental to any removal and/or replacement of personnel.

13.4 The consultant shall provide a grievance mechanism for personnel to raise workplace concerns. The consultant shall inform the workers of the grievance mechanism at the time of recruitment and make it easily accessible to them. The mechanism should involve an appropriate level of management and address concerns promptly, using an understandable and transparent process that provides timely feedback to those concerned, without any retribution. I. Introduction

1. The Fund recognizes that the prevention and mitigation of fraud and corruption in its activities and operations are core components of its development mandate and fiduciary duties. The Fund does not tolerate the diversion or waste of its resources through the practices defined in paragraph 6 below.
2. The objective of this policy is to establish the general principles, responsibilities and procedures to be applied by the Fund in preventing and addressing prohibited practices in its activities and operations.
3. This policy takes effect on the date of its issuance. It supersedes and replaces the IFAD Policy on Preventing Fraud and Corruption in its Activities and Operations (EB 2005/85/R.5/Rev.1) dated 24 November 2005.

II. Policy

A. General principles

4. The Fund has no tolerance towards prohibited practices in its activities and operations. All individuals and entities listed in paragraph 7 below must take appropriate action to prevent, mitigate and combat prohibited practices when participating in an IFAD-financed and/or IFAD-managed operation or activity.
5. The Fund endeavours to ensure that individuals and entities that help to prevent or report, in good faith, allegations of prohibited practices are protected against retaliation and to protect individuals and entities that are the subject of unfair or malicious allegations.

B. Prohibited practices

6. The following practices are considered to be prohibited practices when engaged in connection with an IFAD-financed and/or IFAD-managed operation or activity:
 - (a) A “corrupt practice” is the offering, giving, receiving or soliciting, directly or indirectly, of anything of value in order to improperly influence the actions of another party;
 - (b) A “fraudulent practice” is any act or omission, including a misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party in order to obtain a financial or other benefit or to avoid an obligation;

- (c) A “collusive practice” is an arrangement between two or more parties designed to achieve an improper purpose, including improperly influencing the actions of another party;
- (d) A “coercive practice” is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party in order to improperly influence the actions of that or another party;
- (e) An “obstructive practice” is: (i) deliberately destroying, falsifying, altering or concealing evidence that may be material to an investigation by the Fund or making false statements to investigators in order to materially impede an investigation by the Fund; (ii) threatening, harassing or intimidating any party in order to prevent that party from disclosing its knowledge of matters relevant to an investigation by the Fund or from pursuing such an investigation; and/or (iii) the commission of any act intended to materially impede the exercise of the Fund’s contractual rights of audit, inspection and access to information.

C. Scope

7. This policy applies to all IFAD-financed and/or IFAD-managed operations and activities and to the following individuals and entities:
 - (a) IFAD staff and other persons working for IFAD as non-staff personnel (“IFAD staff and non-staff personnel”);
 - (b) Individuals and entities holding a commercial contract with the Fund and any of their agents or personnel (“vendors”);
 - (c) Public entities receiving IFAD financing or financing managed by the Fund and any of their agents or personnel (“government recipients”) and private entities receiving IFAD financing or financing managed by the Fund and any of their agents or personnel (“non-government recipients”) (all collectively referred to as “recipients”); and
 - (d) Individuals and entities, other than those referred to above, that receive, apply to receive, are responsible for the deposit or transfer of, or take or influence decisions regarding the use of proceeds from IFAD financing or financing managed by the Fund, including, but not limited to, implementing partners, service providers, contractors, suppliers, subcontractors, sub-suppliers, bidders, consultants and any of their agents or personnel. (All such individuals and entities are collectively referred to as “third parties”).

D. Responsibilities

(i) Responsibilities of the Fund

8. The Fund endeavours to prevent, mitigate and combat prohibited practices in its operations and activities. This may include adopting and maintaining:
- (a) Communication channels and a legal framework designed to ensure that this policy is communicated to IFAD staff and non-staff personnel, vendors, recipients and third parties and that it is reflected in procurement documents and contracts relating to IFAD-financed and/or IFAD-managed activities and operations;
 - (b) Fiduciary controls and supervisory processes designed to support adherence to this policy by IFAD staff and non-staff personnel, vendors, recipients and third parties;
 - (c) Measures relating to the receipt of confidential complaints, whistle-blower protection, investigations, sanctions and disciplinary measures which are designed to ensure that prohibited practices can be properly reported and addressed; and
 - (d) Measures designed to ensure that the Fund can report individuals and entities that have been found to have engaged in prohibited practices to other multilateral organizations which may be exposed to similar actions by the same individuals and entities and to local authorities in cases where local laws may have been violated.

(ii) Responsibilities of IFAD staff and non-staff personnel, vendors and third parties

9. When participating in an IFAD-financed and/or IFAD-managed operation or activity, IFAD staff and non-staff personnel, vendors and third parties will:
- (a) Refrain from engaging in prohibited practices;
 - (b) Participate in due diligence checks and disclose, as required, information relating to themselves or any of their key personnel concerning relevant criminal convictions, administrative sanctions and/or temporary suspensions; information concerning agents engaged in connection with a procurement process or contract, including the commissions or fees paid or to be paid; and information concerning any actual or potential conflicts of interest in connection with a procurement process or the execution of a contract;
 - (c) Promptly report to the Fund any allegations or other indications of prohibited practices that come to their attention by virtue of their involvement in an IFAD-financed and/or IFAD-managed operation or activity;
 - (d) Fully cooperate with any investigation conducted by the Fund, including by making personnel available for interviews and providing full access to any and all accounts, premises, documents and records (including electronic records) relating to the relevant IFAD-financed and/or IFAD-managed operation or activity, and by

having such accounts, premises, documents and records audited and/or inspected by auditors and/or investigators appointed by the Fund; and

- (e) Maintain strict confidentiality regarding any and all information received as a consequence of their participation in an IFAD investigation or sanctioning process.

10. When participating in an IFAD-financed and/or IFAD-managed operation or activity, vendors and third parties will maintain all accounts, documents and records relating to that operation or activity for an adequate period of time, as specified in the relevant procurement documents or contract.

(iii) Responsibilities of recipients

11. When participating in an IFAD-financed and/or IFAD-managed operation or activity, recipients will take appropriate action to prevent, mitigate and combat prohibited practices. In particular, they will:

- (a) Adopt appropriate fiduciary and administrative practices and institutional arrangements in order to ensure that the proceeds of any IFAD financing or financing managed by the Fund are used only for the purposes for which they were provided;
- (b) During selection processes and/or prior to entering into a contractual relationship with a third party, conduct appropriate due diligence checks of the selected bidder or potential contractor, including by verifying whether the selected bidder or potential contractor is publicly debarred by any of the IFIs that are signatories to the Agreement for Mutual Enforcement of Debarment Decisions¹² and, if so, whether the debarment meets the requirements for mutual recognition under the Agreement for Mutual Enforcement of Debarment Decisions;
- (c) Take appropriate action to inform third parties and beneficiaries (defined as "persons whom the Fund intends to serve through its grants and loans") of the present policy as well as the Fund's confidential and secure e-mail address for the receipt of complaints concerning prohibited practices;
- (d) Include provisions in procurement documents and contracts with third parties which:
 - (i) Require third parties to disclose, in the course of a procurement process and any time thereafter, information relating to themselves or any of their key personnel concerning relevant criminal convictions, administrative sanctions and/or temporary suspensions; information concerning agents engaged in connection with a procurement process or the execution of a

 - (iv) Require third parties to fully cooperate with any investigation conducted by the Fund, including by making personnel available for interviews and by providing full access to any and all accounts, premises, documents and records (including electronic records) relating to the relevant IFAD-financed and/or IFAD-managed operation or activity and to have such accounts, premises, records and documents audited and/or inspected
 - (v) by auditors and/or investigators appointed by the Fund;

- (e) Promptly inform the Fund of any allegations or other indications of Prohibited Practices that come to their attention;
 - (f) Fully cooperate with any investigation conducted by the Fund, including by making personnel available for interviews and by providing full access to any and all accounts, premises, documents and records (including electronic records) relating to the relevant IFAD-financed and/or IFAD-managed operation or activity and to have such accounts, premises, documents and records audited and/or inspected by auditors and/or investigators appointed by the Fund;

 - (h) Maintain strict confidentiality regarding any and all information received as a consequence of their participation in an IFAD investigation or sanctioning process.
12. Where the Fund finds that prohibited practices have occurred, recipients will: (a) Take appropriate corrective measures in coordination with the Fund; and (b) Give full effect to any temporary suspension or sanction imposed or recognized by the Fund, including by not selecting a bidder, not entering into a contract or suspending or terminating a contractual relationship.
13. Prior to the implementation of an IFAD-financed and/or IFAD-managed operation or activity, government recipients will inform the Fund of the arrangements that they have made for receiving and taking action in response to allegations of fraud and corruption relating to the IFAD-financed and/or IFAD-managed operation or activity, including by designating an independent and competent local authority to be responsible for receiving, reviewing and investigating such allegations.
14. When participating in an IFAD-financed and/or IFAD-managed operation or activity, government recipients will, in consultation with the Fund, take timely and appropriate action to launch a local investigation into allegations and/or other indications of fraud and corruption relating to the IFAD-financed and/or IFAD-managed operation or activity; inform the Fund of the actions taken in any such investigation at such intervals as may be agreed upon by the recipient and the Fund on a case-by-case basis; and, upon the completion of such investigation, promptly share the findings and results thereof, including the supporting evidence, with the Fund. Government recipients will work with the Fund to coordinate any actions other than investigations that they may wish to undertake in response to an alleged or otherwise indicated prohibited practice.
15. Government recipients are encouraged to have in place, in accordance with their laws and regulations, effective whistle-blower protection measures and confidential reporting channels in order to appropriately receive and address allegations of fraud and corruption relating to IFAD-financed and/or IFAD-managed operations and activities.

E. Process

(i) Reporting

16. A designated confidential and secure e-mail address for the receipt of allegations of prohibited practices is available on the Fund's website.

- 
17. In the event of uncertainty as to whether or not an act or omission constitutes a prohibited practice, the designated confidential and secure e-mail address may be used to seek guidance.
 18. The Fund treats all reported allegations with strict confidentiality. This means that the Fund does not normally reveal the identity of a reporting party to anybody outside of the investigative, sanctioning or disciplinary process without the consent of the reporting party.
 19. The Fund endeavours to provide protection from retaliation to any individuals or entities that have helped prevent or have reported to the Fund, in good faith, allegations or other indications of prohibited practices. IFAD staff and non-staff personnel are protected from retaliation under the Fund's Whistle-blower Protection Procedures.

(ii) Investigations

20. Where the Fund has reason to believe that prohibited practices may have occurred, the Fund may decide to review and investigate the matter, irrespective of any investigative actions launched or planned by the recipient.
21. The purpose of an investigation conducted by the Fund is to determine whether an individual or entity has engaged in one or more prohibited practices in connection with an IFAD-financed and/or IFAD-managed operation or activity.
22. Reviews and investigations conducted by the Fund are, inter alia:
 - (a) Strictly confidential, meaning that the Fund does not disclose to anyone outside of the investigative, sanctioning or disciplinary process any evidence or information relating to the review or investigation, including the outcome of a review or investigation, unless such disclosure is allowed under the Fund's legal framework;
 - (b) Independent, meaning that no authority is allowed to interfere with an ongoing review or investigation or to otherwise intervene in, influence or stop such a review or investigation; and
 - (c) Administrative, as opposed to criminal, in nature, meaning that reviews and investigations conducted by the Fund are governed by the Fund's rules and procedures, not by local laws.
23. The office within the Fund that is mandated to conduct reviews and investigations into alleged or otherwise indicated prohibited practices is the Office of Audit and Oversight (AUO). Without prejudice to paragraphs 9(d) and 11(f), AUO may agree not to disclose to anybody outside of AUO any evidence or information that it has obtained on the condition that such evidence or information may be used solely for the purpose of generating new evidence or information, unless the provider of the evidence or information consents.

F. Sanctions and related measures

(i) Temporary suspensions

24. During the course of an IFAD review or investigation, or pending the conclusion of a sanctioning process, the Fund may decide, at any time, to temporarily suspend payments to IFAD non-staff personnel, non-government recipients, vendors or third parties or to temporarily suspend their eligibility to participate in IFAD- financed and/or IFAD-managed operations and activities for an initial period of six (6) months, subject to a possible extension of that suspension for an additional six (6) months.
25. IFAD staff may be temporarily suspended from their duties in accordance with the applicable human resources framework.

(ii) Sanctions

26. If the Fund determines that IFAD non-staff personnel, non-government recipients, vendors or third parties have engaged in prohibited practices, the Fund may impose administrative sanctions on such individuals or entities.
27. Sanctions are imposed on the basis of: (i) the findings and evidence presented by AUO, including mitigating and exculpatory evidence; and (ii) any evidence or arguments submitted by the subject of the investigation in response to the findings presented by AUO.
28. The Fund may apply any of the following sanctions or a combination thereof:
 - (a) Debarment, which is defined as declaring an individual or entity ineligible, either indefinitely or for a stated period of time, to: (i) be awarded any IFAD- financed contract; (ii) benefit, financially or otherwise, from any IFAD- financed contract, including by being engaged as a subcontractor; and (iii) otherwise participate in the preparation or implementation of any IFAD- financed and/or IFAD-managed operation or activity;
 - (b) Debarment with conditional release, which is defined as a debarment that is terminated upon compliance with conditions set forth in the sanction decision;
 - (c) Conditional non-debarment, which is defined as requiring an individual or entity to comply with certain remedial, preventive or other measures as a condition for non-debarment on the understanding that a failure to comply with such measures within a prescribed period of time will result in an automatic debarment under the terms provided for in the sanction decision;
 - (d) Restitution, which is defined as a payment to another party or the Fund (with respect to the Fund's resources) of an amount equivalent to the amount of the diverted funds or the economic benefit obtained as a result of having engaged in a prohibited practice; and

- (e) Letter of reprimand, which is defined as a formal letter of censure for the actions of an individual or entity which informs that individual or entity that any future violation will lead to more severe sanctions.

29. The Fund may extend the application of a sanction to any affiliate of a sanctioned party even if the affiliate has not been directly involved in the prohibited practice. An affiliate is defined as any individual or entity that is: (i) directly or indirectly controlled by the sanctioned party; (ii) under common ownership or control with the sanctioned party; or (iii) acting as an officer, employee or agent of the sanctioned party, including owners of the sanctioned party and/or those who exercise control over the sanctioned party.
30. For the purposes of IFAD-financed and/or IFAD-managed operations and activities, the Fund may consider as debarred individuals and entities that have been debarred by another IFI where: (i) that IFI is a signatory to the Agreement for Mutual Enforcement of Debarment Decisions; and (ii) such debarment meets the requirements for mutual recognition under the Agreement for Mutual Enforcement of Debarment Decisions.¹³

(iii) Disciplinary measures

31. If the Fund finds that IFAD staff have engaged in prohibited practices, the Fund may apply disciplinary measures and may require restitution or other compensation in accordance with the applicable human resources framework.

G. Referrals and information-sharing

32. The Fund may, at any time, refer information or evidence relating to an ongoing or completed investigative, sanctioning or disciplinary process to the local authorities of a Member State. In determining whether such a referral is appropriate, the Fund takes into consideration the interests of the Fund, the affected Member States, the individuals or entities under investigation and any other persons, such as witnesses, who are involved in the case.
33. If the Fund obtains information or evidence indicating potential wrongdoing in connection with the operations and/or activities of another multilateral organization, the Fund may make such information or evidence available to the other organization for the purposes of its own investigative, sanctioning or disciplinary processes.
34. In order to facilitate and regulate the confidential exchange of information and evidence with local authorities and multilateral organizations, the Fund seeks to conclude agreements which establish the rules for such an exchange.

¹³ The Fund may, in the future, decide to also recognize debarments imposed by entities that are not signatories to the Agreement for Mutual Enforcement of Debarment Decisions.

H. Operational responses to Prohibited Practices

(i) Rejection of an award of contract

35. The Fund may refuse to give its no-objection to the award of a contract to a third party if it determines that the third party, or any of its personnel, agents, subconsultants, subcontractors, service providers, suppliers and/or their employees, engaged in a prohibited practice while competing for the contract in question.

(ii) Declaration of misprocurement and/or ineligibility of expenditures

36. The Fund may, at any time, declare a misprocurement and/or the ineligibility of any expenditures associated with a procurement process or contract if it determines that a third party or a representative of the recipient has engaged in a prohibited practice in connection with the procurement process or contract at issue and that the recipient has not taken timely and appropriate action, satisfactory to the Fund, to address such practices when they occur.

(iii) Suspension or cancellation of loan or grant

37. If the Fund determines that a recipient has not taken timely and appropriate action, satisfactory to the Fund, to address prohibited practices when they occur, the Fund may suspend or cancel, in whole or in part, the loan or grant affected by such practice
